25 YEARS OF ISOMETRIC™ TECHNOLOGY

Yonex revolutionized racquets by introducing its “ISOMETRIC™” technology, setting a new global standard for the sport of badminton.

1992

ISOMETRIC™: The World Standard, Set by Yonex

The signature Yonex ISOMETRIC™ racquet revolutionized badminton with a greatly expanded sweet spot compared to a traditional oval frame. For the very first time, a square-shaped racquet was designed to maximize the sweet spot by increasing the intersection of main and cross strings.

Originally developed for tennis racquets, Yonex ISOMETRIC™ tennis racquets immediately supported the top athletes in winning major titles. In 1992, Yonex released the first ISOMETRIC™ badminton racquet, the ISOMETRIC 500, and has since incorporated the signature technology in all of its racquets, gaining the trust of the world's best players.

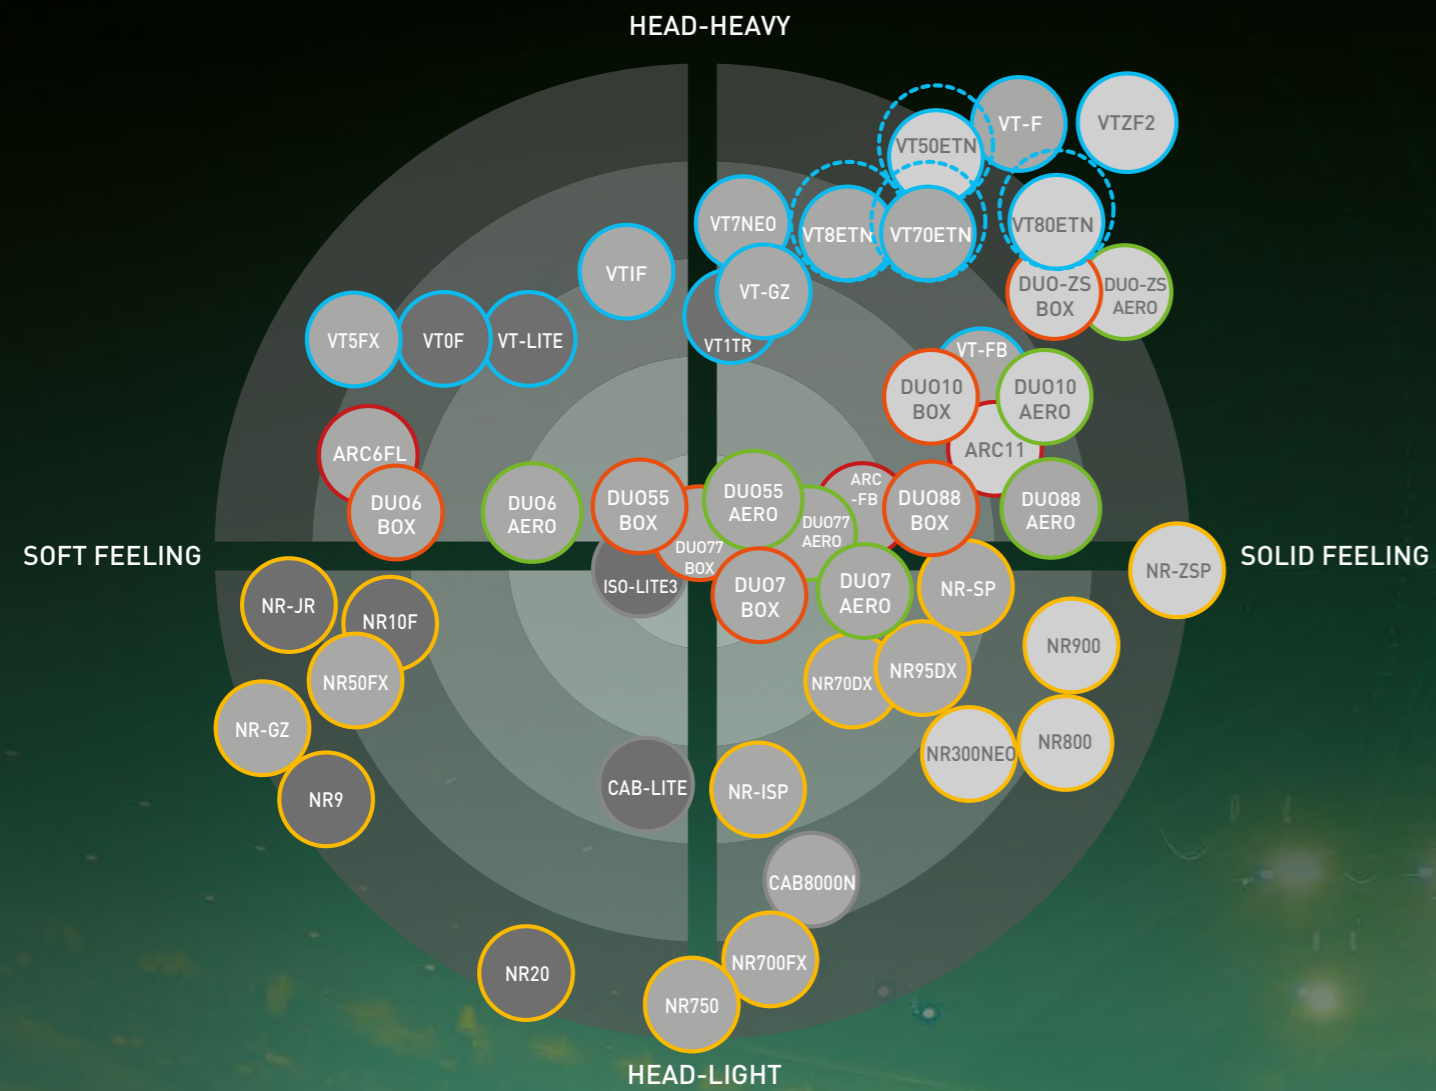

2017

The ISOMETRIC™ Legacy: Continued Evolution

The sport of badminton changed with the introduction of the ISOMETRIC™ frame shape. With an expanded sweet spot, players were now able to strike the shuttlecock with the upper area of the frame, resulting in higher head speeds and forever changing the pace of the game.

The continued development of the ISOMETRIC™ frame shape with innovative designs and technology has allowed legendary players like Lee Chong Wei (MAS) smash at 408 km/h, a world record* (as of January 2017). Yonex will continue to propel the evolution of its signature technology, further contributing to the evolution of badminton as a sport.

*Record verified by the Badminton World Federation during the 2015 Hong Kong Open.

DUORA™

DUORA's cutting edge technology places two unique frame shapes into one revolutionary racquet. Command the court with powerful forehands and equally fast backhands.

DUAL OPTIMUM SYSTEM

Forehand: Strike with power and solid feeling.

Backhand: Sharp and instant returns with reduced air resistance.

Power up your forehand and backhand with the DUAL OPTIMUM SYSTEM. The DUORA series features two contrasting racquet profiles in one unique design. This revolutionary Dual Dynamic Design allows players to enhance each shot while controlling the court. Modern badminton has evolved beyond hard smashes and developed a new kind of offence. Rise to the new game standards with the DUORA series that lets you attack with a variety of shots.

NANOMETRIC DR

	Hold	Repulsion	Impact Strength
NANOMETRIC DR	115	118	117
Conventional Graphite	100	100	100

Number (CONVENTIONAL GRAPHITE = 100). Tested by Yonex. NANOMETRIC material applies the NANOALLOY™ Technology of Toray Industries, Inc.

NANOMETRIC DR is a graphite material based on unique Yonex NANOSCIENCE technology. Created from a material originally developed for next generation space aviation by Toray Industries, Inc., this marks the first time* it has been used within the racquet industry. Firm shuttle hold combined with high repulsion puts the DUORA into a class of its own.

*World first as of June 2015.

DUORA GROMMET

The new DUORA Grommet design features 8 linked grommets made with differing thicknesses on either side of the frame. On impact the stiffer AERO side grommets pull the string harder, increasing launch power for that crucial shot.

HYPER-MG

Hyper-MG is the most elastic graphite material utilized by Yonex. The bottom half of the DUORA Z-STRIKE frame is equipped with Hyper-MG for instant repulsion.

	Repulsion
Hyper-MG	108.6
EX-HMG	100

EX-HMG equipped in VTZF2 and NR-ZSP. Tested by Yonex.

DUORA Z-STRIKE

Carefully crafted to provide control, accuracy, and precision for advanced players. The DUORA Z-STRIKE gives you the power to be offensive on both forehands and backhands, anywhere on the court.

DUORA 10

Advanced model for hard-hitters. Dominate rallies with both forehand smashes and backhand drives.

DUORA 7

All-round model that gives you an advantage over your opponent with powerful forehand clears and backhand receives.

DUORA 6

VIBSLAYER CARBON provides both a comfortable feel and power for more distance on forehand clears and backhand receives.

DUORA 88

Offensive model that increases your forehand power and speed on your backhand.

DUORA 77

All-round model that boosts your forehand and adds distance to your backhand.

DUORA 55

Gives intermediate players great power, shuttle control, and manoevrability.

VOLTRIC™

Leave your opponents vulnerable with the most powerful racquet series Yonex has to offer.

TRI-VOLTAGE SYSTEM

VOLTRIC racquets get their immense power and speed from the innovative TRI-VOLTAGE SYSTEM. The system combines intelligent head weighting, frame flex, and aerodynamics to generate explosive force without compromising speed or control.

POWER: the stiff structure at the top of the frame allows the head to flex in a controlled way, holding the shuttle on the string bed.

AGILITY: the weight applied to the top of the frame and joint area provides great handling while maintaining head-heavy power.

E-tune™

The E-tune system allows you to customize the racquet's weight and balance to fit your style. Power up the TRI-VOLTAGE SYSTEM by attaching weights to the linked grommets, creating your own weight balance to elevate your game.

BLACK MICRO CORE

A stiff, high-density vibration-dampening material featured in the upper half of the VOLTRIC FB frame, allowing players to hit with a solid feel and power.

VOLTRIC FB

Lightweight racquet that provides a solid feel and excellent power.

NANORAY™

Dominate the court with an aerodynamic and lightning-fast NANORAY racquet.

NANOSCIENCE

NANORAY racquets make sure the shuttle spends more time in your opponent's court. The sleek, streamlined frame means it cuts effortlessly through the air while the ultra-stiff X-FULLERENE shaft boosts repulsion power.

X-FULLERENE

X-FULLERENE is incorporated into the full length of the shaft to increase stiffness by 6% and repulsion power by 4% – giving you a high repulsion performance to hit deep into the opponent's court, even with a compact swing during high speed rallies.

	Flexural Strength (Bending Strength)	Force of Repulsion	Stiffness

HORIZONTAL-A CONCEPT	

NANORAY 95DX

POWER BOOST CAP increases speed, while NANOCELL and SOLID TITANIUM boost repulsion. Frame handles up to 33lbs in tension.

ITEM CODE	NR95DX
FLEX	Stiff
FRAME	H.M. Graphite/NANOCELL/ SOLID TITANIUM
SHAFT	H.M. Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5
STRINGING ADVICE	3U 22-33lbs
COLOUR	Blue/Black

SOLID TITANIUM	NANOCELL
ISOMETRIC	Built-in T-Joint
NEW Grommet Pattern	NANOMESH + CARBON NANOTUBE
DX Frame	POWER BOOST CAP
AERO Frame	

NANORAY 70DX

With linked grommets at the lower part of the frame, this racquet provides quick repulsion power with high tension stringing.

ITEM CODE	NR70DX
FLEX	Stiff
FRAME	H.M. Graphite
SHAFT	H.M. Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	4U (Ave.83g) G4,5
STRINGING ADVICE	4U 24-30lbs
COLOUR	White/Silver

ISOMETRIC	NANOMESH + CARBON NANOTUBE
NEW Grommet Pattern	Control Support Cap
AERO Frame	
Built-in T-Joint	

NANORAY 50FX

LIGHT Feel CARBON NEO material and VIBRATION FILTER CAP provide comfort and effortless power.

ITEM CODE	NR50FX
FLEX	Hi-Flex
FRAME	Graphite/ LIGHT Feel CARBON NEO
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	4U (Ave.83g) G3,4,5
STRINGING ADVICE	4U 19-24lbs
COLOUR	White/Blue

LIGHT Feel CARBON NEO	Built-in T-Joint
ISOMETRIC	NANOMESH + CARBON NANOTUBE
Delta Power Frame	Vibration Filter Cap
AERO+BOX Frame	

NANORAY 20

High repulsion power for quick attacking.

ITEM CODE	NR20
FLEX	Hi-Flex
FRAME	Graphite
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	3U (Ave.88g) G3,4,5
STRINGING ADVICE	3U 19-24lbs
COLOUR	Silver/Blue, Silver/Orange

ISOMETRIC	NANOMESH + CARBON NANOTUBE
AERO+BOX Variframe	Control Support Cap
Built-in T-Joint	

NANORAY 10F

Hit powerful shots with comfort, with the TFA CAP absorbing unwanted vibrations.

ITEM CODE	NR10F
FLEX	Hi-Flex
FRAME	Graphite
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	4U (Ave.83g) G4,5
STRINGING ADVICE	4U 19-24lbs
COLOUR	Red, Blue, Lime

ISOMETRIC
AERO Frame
NANOMESH + CARBON NANOTUBE
TFA CAP

NANORAY 9

Standard model that allows for easy swings and good handling.

ITEM CODE	NR9
FLEX	Hi-Flex
FRAME	Graphite
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5
STRINGING ADVICE	3U 19-24lbs
COLOUR	Red

ISOMETRIC
AERO Frame
NANOMESH + CARBON NANOTUBE

NANORAY 6

NANOMESH + CARBON NANOTUBE provide sharper shots.

ITEM CODE	NR6
FRAME	Aluminium
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	10mm Long
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5
STRINGING ADVICE	3U 16-20lbs
COLOUR	Yellow/Black

ISOMETRIC
NANOMESH + CARBON NANOTUBE

MADE IN JAPAN

ARCSABER 11

Neo CS CARBON NANOTUBE adds bite to the shuttlecock while SONIC METAL helps deliver a high repulsion, rapid-fire return.

ITEM CODE	ARC11
FLEX	Stiff
FRAME	H.M. Graphite/Neo CS CARBON NANOTUBE/SONIC METAL
SHAFT	H.M. Graphite/Ultra PEF
LENGTH	10mm Long
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5/ 2U (Ave.93g) G4,5
STRINGING ADVICE	3U 19-24lbs, 2U 20-25lbs
COLOUR	Red

Neo CS CARBON NANOTUBE
SONIC METAL
ISOMETRIC
NEW Grommet Pattern
SOLID FEEL CORE

AERO+BOX Frame
NEW Built-in T-Joint
T-ANCHOR
Ultra PEF
Control Support Cap

MADE IN JAPAN

ARCSABER FB

The lightest model from Yonex made with NANOMETRIC to boost swing speed.

ITEM CODE	ARC-FB
FLEX	Stiff
FRAME	H.M. Graphite/CS CARBON NANOTUBE
SHAFT	H.M. Graphite/NANOMETRIC
LENGTH	10mm Long
WEIGHT/GRIP SIZE	F (Ave.73g) G5,6/ 5U (Ave.78g) G4,5
STRINGING ADVICE	F 19-24lbs, 5U 19-24lbs
COLOUR	Red/Blue

CS CARBON NANOTUBE
ISOMETRIC
NEW Grommet Pattern
SOLID FEEL CORE

AERO+BOX Frame
NEW Built-in T-Joint
NANOMETRIC
Control Support Cap

ARCSABER 6FL

The first tapered DUAL WHIP-BACK SHAFT produces increased flexibility for a longer hold time to enhance transfer of power to the shuttle.

ITEM CODE	ARC6FL
FLEX	Hi-Flex
FRAME	H.M. Graphite/NANOAIR SPRING
SHAFT	Graphite
LENGTH	10mm Long
WEIGHT/GRIP SIZE	4U (Ave.83g) G4,5
STRINGING ADVICE	4U 19-24lbs
COLOUR	Navy Blue, Magenta

NANOAIR SPRING
ISOMETRIC
NEW Grommet Pattern
AERO+BOX Frame

Built-in T-Joint
DUAL WHIP-BACK SHAFT
Control Support Cap

CARBONEX 8000N

Equipped with CARBON NANOTUBE, this full-graphite model allows for exceptional repulsion power.

ITEM CODE	CAB8000N	BOX Frame
FLEX	Medium	Built-in T-Joint
FRAME	Graphite	CARBON NANOTUBE
SHAFT	Graphite/CARBON NANOTUBE	
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5	
STRINGING ADVICE	3U 19-24lbs	
COLOUR	Black/Clear Red	

CARBONEX LITE

The BOX Frame generates face stability with solid impact feel.

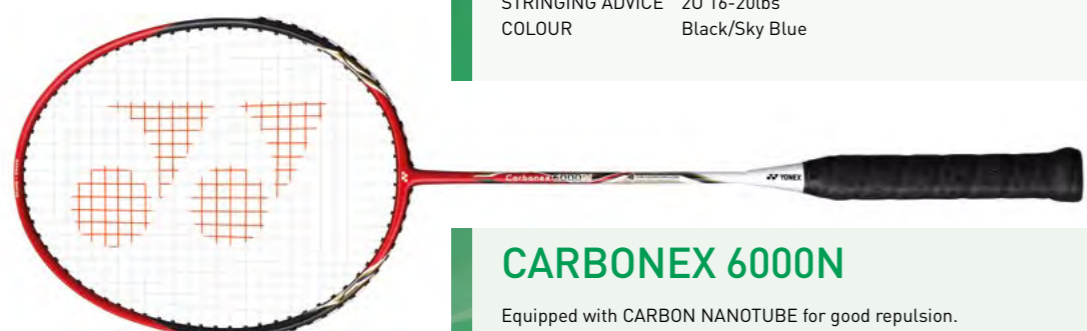

ITEM CODE	CAB-LITE	BOX Frame
FLEX	Medium	
FRAME	Graphite	
SHAFT	Graphite	
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5	
STRINGING ADVICE	3U 19-24lbs	
COLOUR	Black/Grey	

CARBONEX 7000N

Equipped with CARBON NANOTUBE and a graphite shaft for good repulsion.

ITEM CODE	CAB7000N	BOX Frame
FRAME	Aluminium	CARBON NANOTUBE
SHAFT	Graphite/CARBON NANOTUBE	
WEIGHT/GRIP SIZE	2U (Ave.93g) G4,5	
STRINGING ADVICE	2U 16-20lbs	
COLOUR	Black/Sky Blue	

CARBONEX 6000N

Equipped with CARBON NANOTUBE for good repulsion.

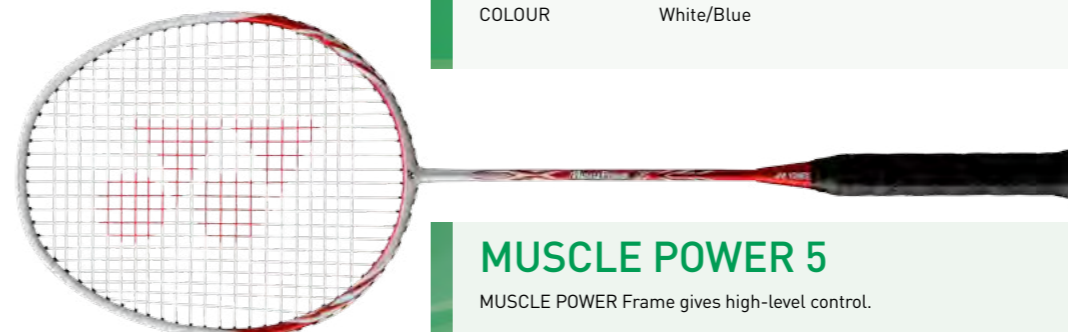

ITEM CODE	CAB6000N	BOX Frame
FRAME	Aluminium	CARBON NANOTUBE
SHAFT	Steel/CARBON NANOTUBE	
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	Red	

MUSCLE POWER 8

MUSCLE POWER Frame and a head-light design provide immediate repulsion with high manoevrability.

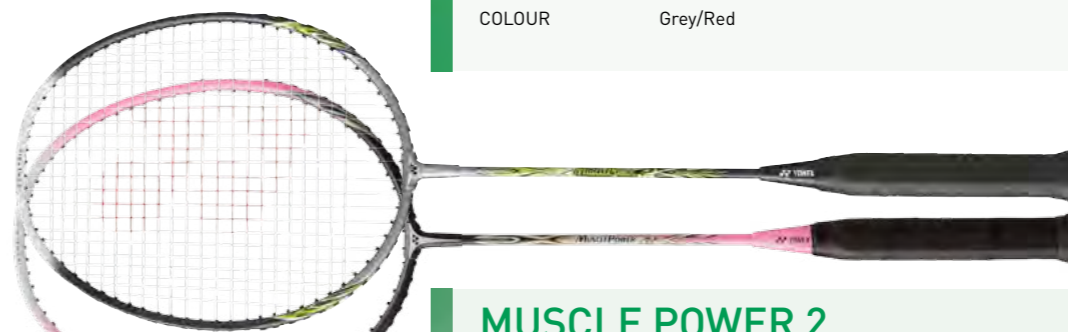

ITEM CODE	MP8G	ISOMETRIC
FRAME	Aluminium	AERO Frame
SHAFT	Graphite	NANOMESH + CARBON NANOTUBE
WEIGHT/GRIP SIZE	2U (Ave.93g) G4	MUSCLE POWER Frame
STRINGING ADVICE	2U 16-20lbs	
COLOUR	White/Blue	

MUSCLE POWER 5

MUSCLE POWER Frame gives high-level control.

ITEM CODE	MP5G	ISOMETRIC
FRAME	Aluminium	MUSCLE POWER Frame
SHAFT	Steel	
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	Grey/Red	

MUSCLE POWER 2

MUSCLE POWER Frame gives sharp repulsion.

ITEM CODE	MP2	ISOMETRIC
FRAME	Aluminium	MUSCLE POWER Frame
SHAFT	Steel	
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	Silver/Lime, Dark Gun/Pink	

ISOMETRIC LITE 3

AERO Frame and ISOMETRIC shape allow for lighter, easier play.

ITEM CODE	ISO-LITE 3	ISOMETRIC
FLEX	Medium	AERO Frame
FRAME	Graphite	
SHAFT	Graphite	
LENGTH	10mm Long	
WEIGHT/GRIP SIZE	3U (Ave.88g) G4,5	
STRINGING ADVICE	3U 19-24lbs	
COLOUR	Red, Cyan, Yellow	

B 700MDM

MEGA Frame with larger sweet spot for deeper shots.

ITEM CODE	B700MDM	DURA Frame
FRAME	Aluminium	MEGA Frame
SHAFT	Steel	BOX Frame
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	White/Gold, White/Blue	

ISOMETRIC TR1

Full graphite, game improvement racquet with a solid feel and match-like playability.

ITEM CODE	ISO-TR1	ISOMETRIC
FLEX	Medium	AERO+BOX Frame
FRAME	Graphite	
SHAFT	Graphite	
LENGTH	10mm Long	
WEIGHT/GRIP SIZE	118g G4,5	
STRINGING ADVICE	G4,5 20-30lbs	
COLOUR	Snow White	

The mesh cover assists shot development by adding air resistance to your swing. This improves strength and gives you the ability to deliver more powerful shots.

B 6000I

ISOMETRIC with large sweet spot for power and distance.

ITEM CODE	B6000I	ISOMETRIC
FRAME	Aluminium	
SHAFT	Steel	
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	Black/Red, Black/Yellow	

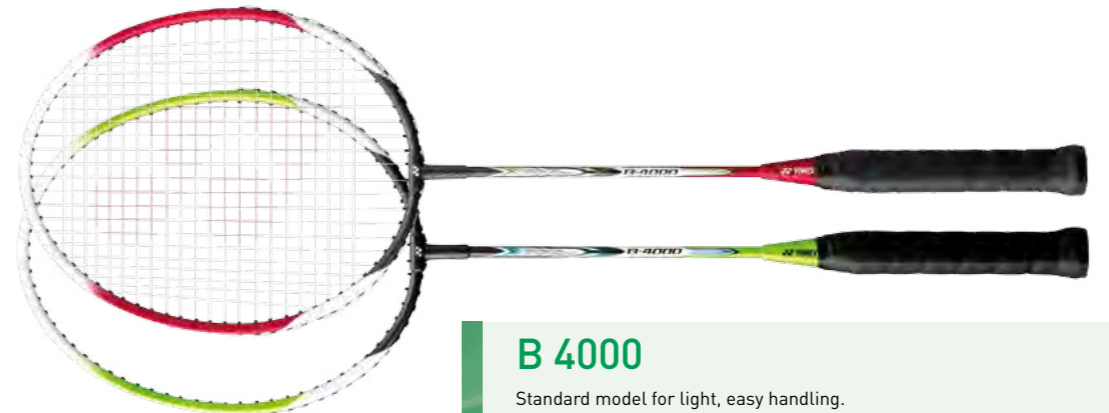

ISOMETRIC TR0

Build muscular strength with this all-graphite training racquet.

ITEM CODE	ISO-TR0	ISOMETRIC
FLEX	Medium	AERO+BOX Frame
FRAME	Graphite	
SHAFT	Graphite	
LENGTH	10mm Long	
WEIGHT/GRIP SIZE	150g G4,5	
STRINGING ADVICE	G4,5 20-30lbs	
COLOUR	Cool Black	

The mesh cover assists shot development by adding air resistance to your swing. This improves strength and gives you the ability to deliver more powerful shots.

B 4000

Standard model for light, easy handling.

ITEM CODE	B4000G	
FRAME	Aluminium	
SHAFT	Steel	
WEIGHT/GRIP SIZE	U (Ave.98g) G4	
STRINGING ADVICE	U 16-20lbs	
COLOUR	Red, Lime	

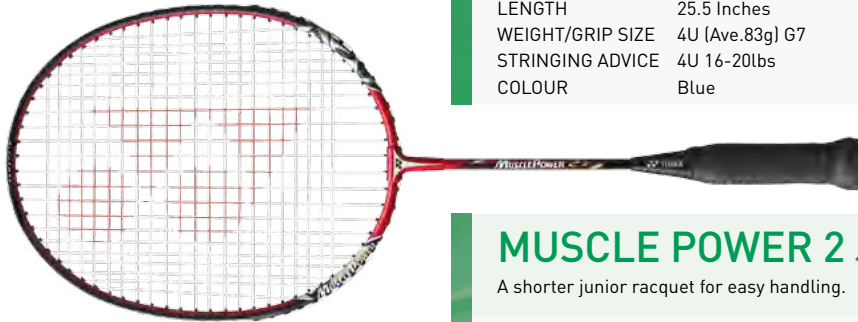

NANORAY JUNIOR

A full graphite junior racquet to help hit with ease.

ITEM CODE	NR-JR
FLEX	Hi-Flex
FRAME	Graphite
SHAFT	Graphite/NANOMESH + CARBON NANOTUBE
LENGTH	25.5 Inches
WEIGHT/GRIP SIZE	4U (Ave.83g) G7
STRINGING ADVICE	4U 16-20lbs
COLOUR	Blue

NANOMESH + CARBON NANOTUBE
ISOMETRIC
AERO Frame
Built-in T-Joint

MUSCLE POWER 2 JUNIOR

A shorter junior racquet for easy handling.

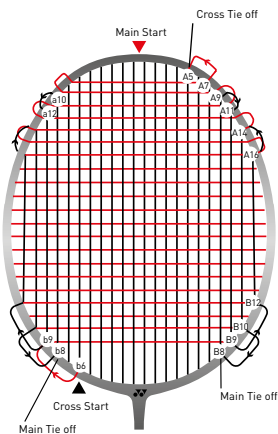

ITEM CODE	MP2JR
FRAME	Aluminium
SHAFT	Steel
LENGTH	21 Inches
WEIGHT/GRIP SIZE	4U (Ave.83g) G5
STRINGING ADVICE	4U 14-18lbs
COLOUR	Red

ISOMETRIC
MUSCLE POWER Frame

THE YONEX RECOMMENDED STRINGING METHOD

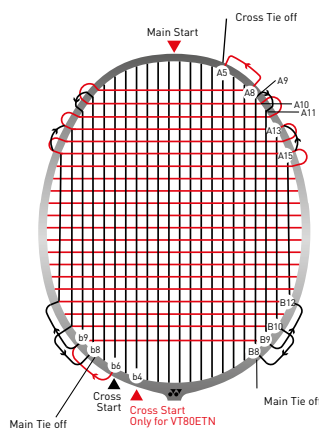

Please check the racquet's recommended stringing tension and string within that range. Yonex recommends that crosses be strung at a tension 10% higher than the mains. However, it is recommended that the final 5 crosses be strung at the same tension as the mains. Yonex recommends this method as it helps the racquet maintain its original shape after stringing.

DU0-ZS, VT-FB, VT-GZ, VTZF2, VTIF, VT-F
NR-ZSP, NR-GZ, NR-ISP, NR-SP, ARC-FB

MAIN: Start from top centre, keep on stringing until B9 (skip A7, A9 & A11). Go through B12, directly to A16, and then straight to A14, down to B10 and tie off at B8. (Opposite side: the same procedure)
CROSS: Make a knot at B6 and start crosses from B9. Keep on stringing until A7 (skip A12 & A10), then directly to A5 and tie off.

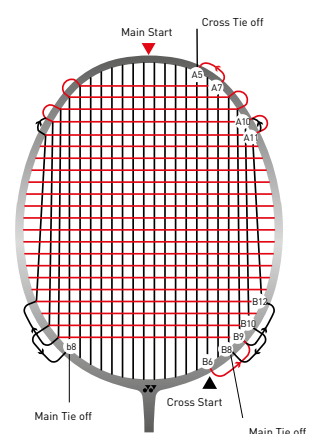

DU010, DU07, DU06, DU088, DU077, DU055,
VT80ETN, VT70ETN, VT50ETN, VT8ETN, VT7NEO,
NR900, NR800, NR750, NR700FX, NR300NEO,
NR95DX, NR70DX, NR10F, NR9, ARC11, ARC6FL

MAIN: Start from top centre, keep on stringing until B9 (skip A8 & A10). Go through B12, directly to A15, and then straight to A13, down to B10 and tie off at B8. (Opposite side: the same procedure)
CROSS: Make a knot at B6 and start crosses from B9. Keep on stringing until A8 (skip A11 & A9), then directly to A5 and tie off.

*Make a knot at B4 for VT80ETN

Other Racquets

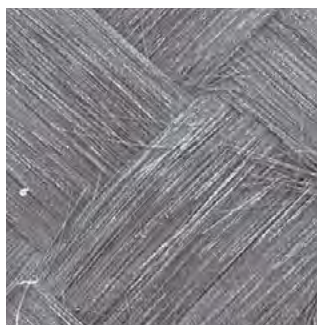

MAIN: Start from top centre, keep on stringing until B9. Go through B12, directly to A11, and then straight to A10, down to B10 and tie off at B8. (Opposite side: the same procedure)
CROSS: Make a knot at B6 and start crosses from B9. Keep on stringing until A7, skip A6 and tie off at A5.

RACQUET TECHNOLOGY

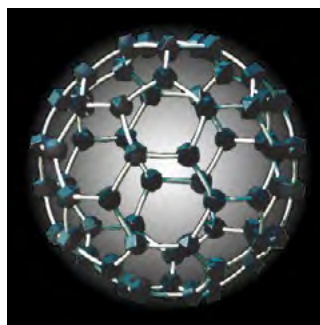

Yonex racquets are precisely engineered using technology on a molecular level that's invisible to the naked eye but make a visible difference to the racquet performance.

The NANOSCIENCE technology allows Yonex to alter the structure of the materials in the racquet to build strength, flex and power exactly where it's needed. That's what gives Yonex racquets the leading edge.

1/1,000m

1/1,000,000,000m

MATERIAL

REXIL Fiber

This original high quality material was developed by Yonex to exceed the repulsion and shock absorption properties of normal materials.

Sound Filter

Intimidate your opponent with an aggressive sound of a Yonex racquet equipped with Sound Filter. Using material engineered into the racquet frame, the technology filters only the sound required for a powerful and commanding tone during play.

EX-HMG/SUPER HMG

This ultra-elastic graphite material increases repulsion, putting sharper power into smashes, drives, clears and many other shots.

VIBSLAYER CARBON

VIBSLAYER CARBON is a material incorporated into the bottom-half of the DUORA 6 frame. Made with ultra-thin layers of shock-absorbing material* between layers of carbon, players experience the same level of repulsion power generated by normal carbon with greatly reduced shock impact, cutting down on fatigue and stress on the body.

*VIBSLAYER CARBON utilizes shock-absorbing materials developed by Toray Industries, Inc.

SONIC METAL

An ultra-stiff material incorporated into the lower part of the frame. SONIC METAL gives an aggressive snap-back effect, increasing repulsion power and producing an attacking sound.

NANOMETRIC β

Grounded in NANOSCIENCE, this material binds carbon fibres tightly together one-by-one without any gaps, for enhanced strength.

*NANOMETRIC material applies the NANOALLOY™ Technology of Toray Industries, Inc.

NANOMESH + CARBON NANOTUBE

Unique structural carbon materials are an integral part of the frames and shafts of the NANORAY racquet series, resulting in sharper handling, greater repulsion power, and increased strength.

NANOCELL

Finely mixed nano-sized bubbles greatly reduce impact stress on the racquet, resulting in improved durability.

Graphite carbon fibres bound with epoxy resin boost repulsion power and strength.

NANOAIR SPRING

Tiny air pockets in the racquet's carbon structure act like a spring, providing improved energy transfer from the string-bed to the shuttle for powerful shots.

TOUGHLEX

TOUGHLEX is a 'sticky' resin which delivers high flexibility and intensity. High resilience and flexibility help players to hit easy clear shots.

NICKEL-TITANIUM FIBER

Contained in the outer-most edge of the DUORA 10's AERO Frame, this titanium material provides increased stiffness in the racquet frame along with strong form retention, allowing for quick repulsion.

IC Elastomer

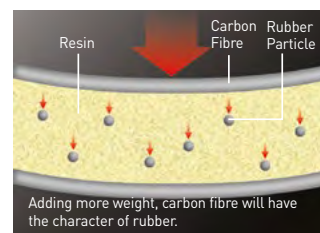

Found throughout the inside of the DUORA 7 frame, this soft elastomer material increases shuttle hold and accumulates energy.

TRANS-WEIGHT SYSTEM

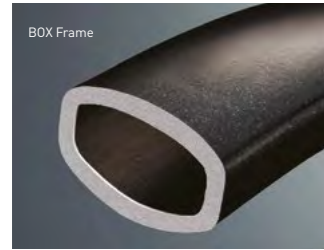

The overall frame is made to be lighter with a majority of the weight being shifted to the grip area. This results in a head light design which puts more weight into players' hands and increases acceleration on swings.

LIGHT Feel CARBON NEO

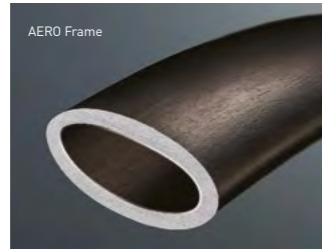

Combining rubber particles with carbon fibre generates a light feel and flexibility at impact.

FRAME

BOX Frame
The BOX Frame has an ultra-stiff profile for a solid feel.

AERO Frame
The AERO Frame cuts air resistance for a faster swing.

AERO+BOX Frame
AERO and BOX Frame profiles are combined on some racquets for a faster swing with a more solid feel.

DELTA POWER FRAME
YONEX applied the technologies of Aerodynamic Shape and Box Shape to the Delta Power Frame, which creates a stable and solid hitting face without sacrificing its power.

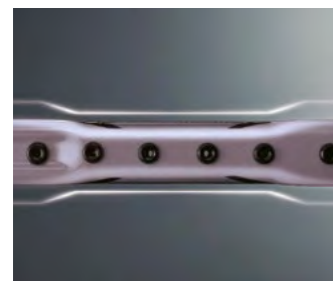

AERO+BOX Variframe
Aerodynamic contouring of the top of the frame minimizes air resistance, transferring more speed and power into your shots.

HORIZONTAL-A CONCEPT
This innovative grommet pattern allows strings to run horizontally, creating greater flex in the string bed providing an enlarged sweet spot at the top of the frame, in the smallest head yet.

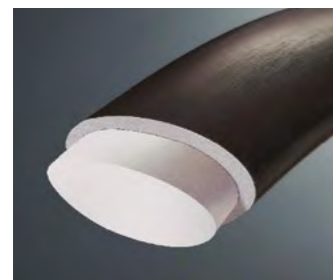

VERTICAL-A CONCEPT
The unique grommet pattern allows strings to run vertically through to the string bed, adding more flex and creating a wider, enlarged sweet spot.

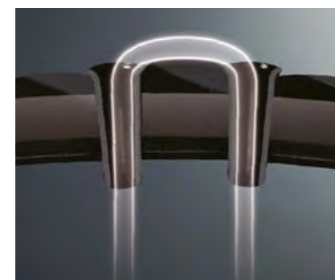

SBZ (Snap Back Zone)
The slimmer section in the middle of the frame incorporates an elastic material called EX-HMG. This allows the frame to flex more on impact, repelling the shuttle at astonishing speeds.

NEW Grommet Pattern
Our single-pass grommet design has more holes than a conventional racquet for a higher-performance stringing pattern.

SOLID FEEL CORE
All Japan-made racquets use a shock-absorbing core to eliminate harmful vibrations travelling through the shaft.

MUSCLE POWER Frame
Frames with MUSCLE POWER have a smoother arched string seat that reduces stress, helping strings to last longer.

TRI-iBUMPER
The tungsten infused grommet helps maximize contact time between the shuttle and strings, giving more power.

Compact Frame
The smaller frame size further reduces unwanted air resistance and improves feel.

Super Slim Frame
This thin frame provides greater head speed and a solid feel.

MEGA Frame
Due to its unique large-frame design, the MEGA Frame further enlarges the already large sweet spot provided by ISOMETRIC. Compared with an ordinary racquet, the MEGA Frame provides a 34% larger sweet spot for greater reach and more effective off-centre hits.

DURA Frame
The engineered DURA Frame profile on Yonex aluminium racquets gives them incredible strength and a solid feel.

DX Frame
Features a wider trench to reduce impact shock by distributing weight pressure over a larger area. It is also thicker and able to stretch under pressure so that impact shock is spread over the whole frame.

JOINT

Built-in T-Joint
Buried deep within the layers of graphite and carbon, the ultra-tough Built-in T-Joint reinforces the intersection of the shaft and head, increasing strength and eliminating twisting.

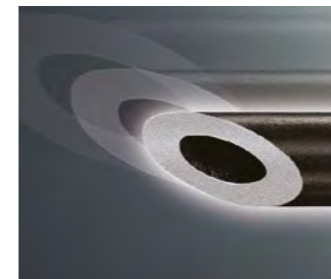

NEW Built-in T-Joint
Made from lightweight plastic and epoxy resin, the NEW Built-in T-Joint has a foaming agent in the frame core, increasing the stability of the shuttle on the string bed.

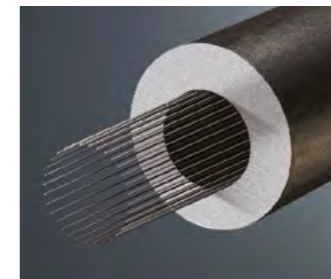

T-ANCHOR

The T-ANCHOR increases stiffness for a faster recovery.

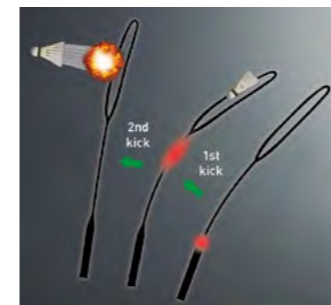

SHAFT

Slim Shafts
Yonex Slim Shafts with added flex are designed to slice effortlessly through the air to generate extra power.

Ultra PEF
Yonex shafts are constructed using lightweight Ultra Poly Ethylene Fibres that can withstand immense forces while absorbing unwanted shocks and vibrations.

DUAL WHIP-BACK SHAFT
Sharpening gradually from the joint to the cap, Yonex presents its first tapered shaft, which features 2 kick-points to extend the shuttlecock's flight. The first kick-point at the cap grants players an accelerated swing, while the second is made of an elastic material, allowing for increased bending. The design produces a longer shuttle hold time and heightened transfer of power.

CAP

Control Support Cap
Wider flat surface for more grip and better control.

TFA CAP
Provides extra shaft flex to accelerate frame recovery after impact. Also provides vibration dampening along with a comfortable fit for your thumb.

POWER BOOST CAP
A unique mix of stiff and flexible materials used in the POWER BOOST CAP generates additional power without losing stability.

Vibration Filter Cap
Cap shape and material reduces unwanted vibrations to deliver clean shots.

STRINGS

Yonex strings are engineered and developed in Japan to the highest standards, maximizing your racquet's potential.

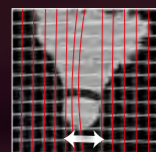

Hairpin:
High Friction on Entire String Bed

The main strings have a large surface area and high-friction coating to put easy spin on hairpins.

Cut Smash:
Strings Straighten Quickly on Impact

Thin cross strings with low-friction allow easy movement and quick straightening on cut smashes.

AEROBITE

HYBRID COMBO FOR QUICK REPULSION AND PIERCING SPIN

The first ever hybrid string combo from Yonex gives you more ways to seize the advantage in high speed rallies. The new AEROBITE applies heavy spin for decisive cut smashes or a solid touch for hairpins. Diversify your game and dominate the court.

HIGH REPULSION

AEROSONIC
Shred the air with an exhilarating and powerful sound with one of the thinnest strings from Yonex. For players seeking high repulsion and a hard-hitting sound.

Repulsion Power	5	11
Durability	7	11
Hitting Sound	7	11
Shock Absorption	7	9
Control	7	9

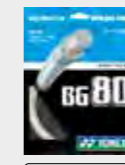

Item Code: BGAS
Length: 10/200m (33/656ft) Gauge: 0.61mm
Core: High-Intensity Nylon Multifilament
Outer: High Polymer Braided Nylon

BG66 FORCE
Shock absorbing nylon composite coating combined with the repulsion power of a thin 0.65mm gauge provides exceptional smash power and control.

Repulsion Power	6	10
Durability	6	10
Hitting Sound	9	10
Shock Absorption	9	10
Control	9	10

Item Code: BG66F
Length: 10/200m (33/656ft) Gauge: 0.65mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre
Coating: Special Nylon Coating

BG80
The high-modulus Vectran™ fibre is an advanced material wrapped around a strong multifilament core.

Repulsion Power	6	8
Durability	6	7
Hitting Sound	6	7
Shock Absorption	6	7
Control	6	7

Item Code: BG80
Length: 10/200m (33/656ft) Gauge: 0.68mm
Core: High Polymer Nylon Multifilament with Vectran™
Outer: Special Braided Oval Shaped High Polymer Nylon Fibre

BG66 ULTIMAX
The BG66UM has a 0.65mm thin gauge and the perfect balance of speed, control, and durability, making it the best choice for the world's top players.

Repulsion Power	6	10
Durability	6	10
Hitting Sound	6	10
Shock Absorption	8	10
Control	6	10

Item Code: BG66UM
Length: 10/200m (33/656ft) Gauge: 0.65mm
Core: High-Intensity Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre

BG80 POWER
The combination of Yonex original high-intensity nylon multifilament and high-modulus Vectran™ provides a solid feeling and powerful smash. For hard-hitting players.

Repulsion Power	7	9
Durability	7	9
Hitting Sound	7	9
Shock Absorption	6	7
Control	6	7

Item Code: BG80P
Length: 10/200m (33/656ft) Gauge: 0.68mm
Core: High-Intensity Nylon Multifilament with Vectran™
Outer: Special Braided High Polymer Nylon Fibre

NBGO98
Sharp feeling with 0.66mm gauge. Great repulsion for high clear and defensive shots.

Repulsion Power	7	10
Durability	7	10
Hitting Sound	7	10
Shock Absorption	8	10
Control	6	10

Item Code: NBG98
Length: 10/200m (33/656ft) Gauge: 0.66mm
Core: High-Intensity Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre
Coating: Compound CUP-STACK CARBON NANOTUBE

HIGH REPULSION

BG66
This ultra-thin gauge string offers the ultimate in repulsion power and a clear hitting sound.

Repulsion Power	5	9
Durability	5	7
Hitting Sound	7	7
Shock Absorption	7	7
Control	7	7

Item Code: BG66
Length: 10m (33ft) Gauge: 0.66mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre

AEROBITE
The first ever hybrid string combo. The new AEROBITE applies heavy spin for decisive cut smashes and a solid touch for hairpins that drop straight down.

Repulsion Power	6	10
Durability	6	10
Hitting Sound	6	10
Shock Absorption	8	10
Control	6	10

Item Code: BGAB
Length: Mains - 5.5m (18ft). Crosses - 5m (16ft)
Gauge: Mains - 0.67mm. Crosses - 0.61mm
Core: Mains & Crosses - High-Intensity Nylon Multifilament
Outer: Mains & Crosses - High Polymer Braided Nylon
Coating: Mains - Polyurethane Coating

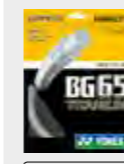

NBGO99
Yonex original rough braided fibre and a special nylon coating provide maximum bite on the shuttle for enhanced hairpin shots and cuts. Designed to increase control for players with a technical style.

Repulsion Power	7	9
Durability	7	9
Hitting Sound	7	9
Shock Absorption	8	10
Control	6	10

Item Code: NBG99
Length: 10m (33ft) Gauge: 0.69mm
Core: High-Intensity Nylon Multifilament
Outer: High Polymer Nylon Rough Braided Fibre
Coating: Special Nylon Coating

DURABILITY

BG65 Titanium
The compound titanium hydride coating provides a sharp yet comfortable feel at impact. Designed for hard-hitters.

Repulsion Power	7	7
Durability	7	7
Hitting Sound	7	7
Shock Absorption	6	7
Control	6	7

Item Code: BG65TI
Length: 10/200m (33/656ft) Gauge: 0.70mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre
Coating: Compound Titanium Hydride

BG70PRO
The braided oval shaped fibre construction provides superior tension-holding properties while providing a solid feel. Designed for hard-hitters.

Repulsion Power	7	7
Durability	7	7
Hitting Sound	6	7
Shock Absorption	5	6
Control	6	7

Item Code: BG70PRO
Length: 10/200m (33/656ft) Gauge: 0.70mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided Oval Shaped High Polymer Nylon Fibre

NBGO95
Compound CUP-STACK CARBON NANOTUBE achieves great repulsion combined with high durability. Suited for players looking for speed and durability.

Repulsion Power	8	8
Durability	8	8
Hitting Sound	7	8
Shock Absorption	6	7
Control	6	7

Item Code: NBG95
Length: 10/200m (33/656ft) Gauge: 0.69mm
Core: High-Intensity Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre
Coating: Compound CUP-STACK CARBON NANOTUBE

DURABILITY

BG65
The 0.70mm specially braided fibre increases durability and reduces string abrasion. The BG65's all-round performance makes it the choice of the world's top players.

Repulsion Power	6	8
Durability	6	8
Hitting Sound	6	8
Shock Absorption	6	8
Control	6	8

Item Code: BG65
Length: 10/200/500m (33/656/1640ft) Gauge: 0.70mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre

BG85
This 0.67mm gauge string made from an advanced high-modulus Vectran™ fibre and multi braided outer generates great repulsion power with a sharp touch.

Repulsion Power	6	8
Durability	6	8
Hitting Sound	6	8
Shock Absorption	7	8
Control	7	8

Item Code: BG85
Length: 10m (33ft) Gauge: 0.67mm
Core: High Polymer Nylon Multifilament with Vectran™
Outer: Special Braided High Polymer Nylon Fibre

BG68 TITANIUM
A compound titanium hydride coating and 0.68mm gauge provide not only a clear sound at impact but also a sharp and comfortable feel. Designed for control players.

Repulsion Power	6	9
Durability	6	9
Hitting Sound	6	9
Shock Absorption	7	9
Control	7	9

Item Code: BG68TI
Length: 10/200m (33/656ft) Gauge: 0.68mm
Core: High Polymer Nylon Multifilament
Outer: Special Braided High Polymer Nylon Fibre
Coating: Compound Titanium Hydride

HARD-HITTING SOUND

CUP-STACK CARBON NANOTUBE
Advanced construction minimizes notching of the string at the intersections, for greater durability and high repulsion power.

Vectran™
The Vectran™ high-strength and high-elasticity spiral winding prolongs durability and racquet stringing tension.

Hydro Titanium
Compound titanium hydride coating provides not only a sharp feel at impact but increased durability.

Multifilament
Yonex multifilament features a super-fine diameter for high durability and a soft feel on impact.

Braided Structure
Braided threads around the main core thread create a robust string structure, allowing it to swiftly return back to its original position after impact for more power and repulsion on the shuttlecock.

Rough Braided Structure
Threads of varying thicknesses are braided around the main core thread resulting in a bumpy surface, improving performance on hairpins and cut smashes.

Polyurethane Coating
This tacky coating provides increased hold on the shuttlecock providing more bite at the moment of impact for improved control.

The Yonex Stringing Team provides global support to the world's best players.

The Yonex Stringing Team is a global network of stringers rich with knowledge and proven skills. To provide the best performance possible alongside exceptional service, the team strives tirelessly to sharpen its expertise and techniques.

Across tennis, badminton and soft tennis, the Yonex Stringing Team boasts over 700 members worldwide, and is the only team in the world to service global tournaments in these three sports combined*. Harnessing this vast network, the Yonex Stringing Team supports the world's top players with the best stringing service.

The Yonex Stringing Team provided services to 9 out of 13 BWF Superseries Tournaments in 2016.

*Researched by Yonex.

STRINGING MACHINES

The high-performance Yonex PT8 Deluxe stringing machine is specially made to meet the demands of the world-class Yonex Stringing Team. The machine allows our highly-skilled technicians to string with the utmost of accuracy so players can compete at their highest level at tournaments. The new PT8 Deluxe features design improvements focusing on the four elements critical to carrying out high-quality stringing.

ELECTRIC BADMINTON, TENNIS, & SOFT TENNIS STRINGING MACHINE PT8 DELUXE

ITEM CODE: PT8DXW
 SIZE: Approx. 1050mm (W) x 500mm (D) x 1080 – 1270mm (H)
 WEIGHT: Approx. 56kg/123lbs

MADE IN JAPAN

AERO COVER

ITEM CODE: PT8DXC

MADE IN JAPAN

*Aero Cover sold separately and is not included with the stringing machine.

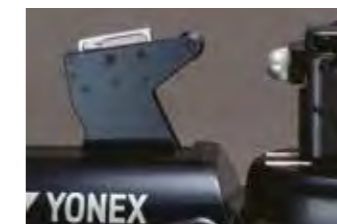

PRECISION: COMPUTER UNIT

- The conductivity of the touchscreen has been improved.
- The system has added an option to set tension in 0.5kg increments while retaining the 0.2kg option from the previous model, allowing for even more precise stringing.

STORAGE SPACE: STRING RAIL & AERO COVER

- A rail placed under the work table creates a practical storage space for rolls of string.
- Sold separately from the main machine, an Aero Cover can be applied to the stringing machine, conveniently expanding storage space.

EFFICIENCY: TENSION HEAD

- The drum has been made smaller and positioned closer to the turntable to reduce the amount of string used, improving stringing efficiency.

WORKABILITY: CLAMP

- The PT8 Deluxe features an upgraded clamp, with a thinner and more ergonomic design. The new clamp is shorter than in previous models, offering a great improvement in workability.

ELECTRIC BADMINTON, TENNIS, & SOFT TENNIS STRINGING MACHINE

ITEM CODE: ST-7000EX
 SIZE: Approx. 950mm (W) x 450mm (D) x 1150mm (H)
 WEIGHT: Approx. 74kg/163lbs

360° swivel turntable for all-round easy access.

Precise electronic tension control from 10-90lbs in increments of 0.1lbs.

2 convenient ways to use: Standing or Table-Top style.

BADMINTON EXCLUSIVE MANUAL STRINGING MACHINE

Stand Type
 ITEM CODE: ST-700EX
 SIZE: Approx. 830mm (W) x 470mm (D) x 1120 – 1170 mm (H)
 WEIGHT: Approx. 27kg/60lbs

Table Type
 ITEM CODE: ST-700TEX
 SIZE: Approx. 750mm (W) x 330mm (D) x 470 – 520 mm (H)
 WEIGHT: Approx. 22kg/49lbs

SHUTTLECOCKS

Crafted with exacting detail and to the strictest criteria, Yonex shuttlecocks are made to provide reliable swift recovery, pinpoint accuracy, and stable flight. Recognized globally for this high quality, Yonex officially supplied shuttlecocks to 9 of the 13 BWF Superseries tournaments in 2016.

The Yonex shuttlecock was the official shuttlecock of the following international tournaments in 2016:

BWF Events

- BWF World Junior Championships (Bilbao, Spain)
- YONEX Korea Junior Open Badminton Championships

MetLife BWF World Superseries Premier

- YONEX All England Open Badminton Championships SSP
- Indonesia Open SSP
- YONEX Denmark Open SSP
- Dubai World Superseries Finals

MetLife BWF World Superseries

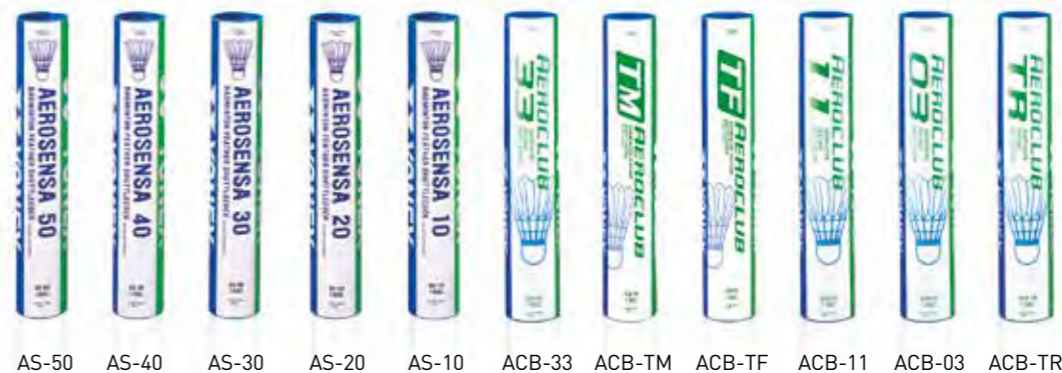

- YONEX-SUNRISE India Open SS
- Australian Badminton Open SS
- YONEX OPEN JAPAN SS
- YONEX French Open SS
- YONEX-SUNRISE Hong Kong Open SS

BWF Grand Prix Gold Series

- Syed Modi International Badminton Championships GPG
- Princess Sirivannavari Thailand Masters GPG
- YONEX German Open Badminton Championships GPG
- YONEX Swiss Open GPG
- YONEX Open Chinese Taipei GPG
- YONEX US Open Badminton Championships GPG
- Thailand Open GPG
- Bitburger Badminton Open GPG
- YONEX-SUNRISE Indonesian Masters GPG

FEATHER SHUTTLECOCKS

Yonex has been painstakingly hand making the best feather shuttlecocks in the world since 1965. Each of our shuttles is assembled by a team of expert craftsmen using only the finest materials. They are then individually tested to make sure they deliver consistent flight trajectory, accuracy and distance at all temperatures. That's why the best players and the biggest tournaments in the world choose Yonex shuttlecocks.

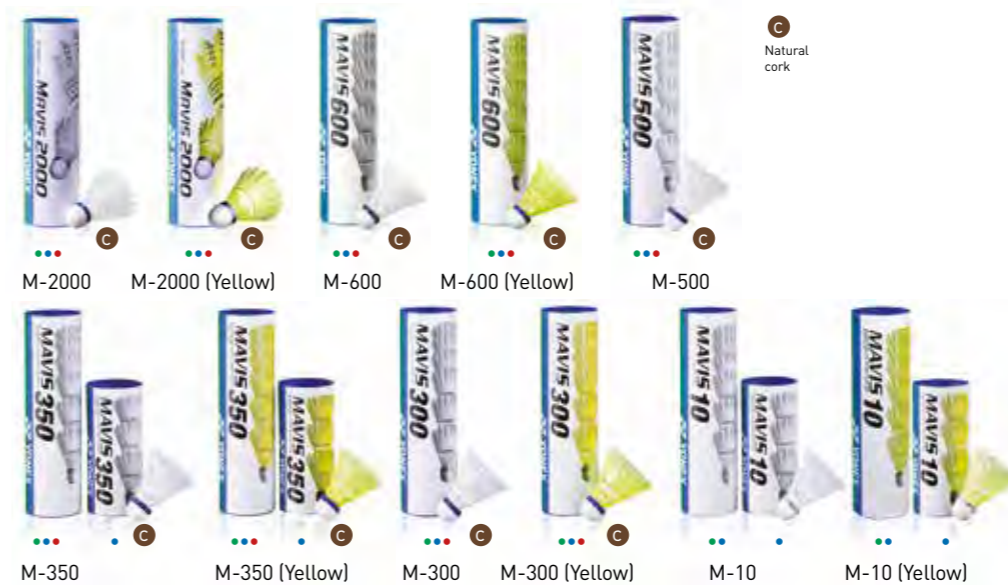

AS-50 AS-40 AS-30 AS-20 AS-10 ACB-33 ACB-TM ACB-TF ACB-11 ACB-03 ACB-TR

NYLON SHUTTLECOCKS

MADE IN JAPAN

Yonex precision MAVIS Nylon shuttlecocks are the closest you can get to traditional feather. Designed to have the same flight time as a feather shuttle, they give an accurate and durable performance with a traditional feel.

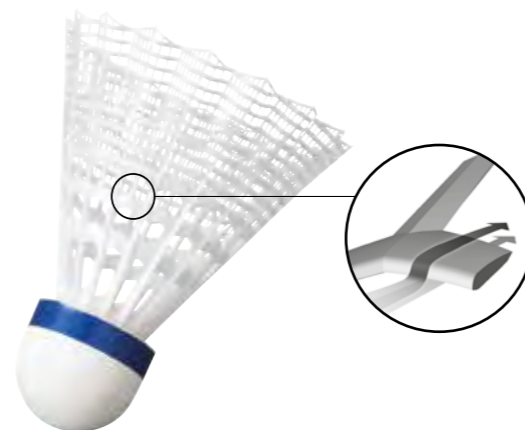

M-2000 M-2000 (Yellow) M-600 M-600 (Yellow) M-500
 M-350 M-350 (Yellow) M-300 M-300 (Yellow) M-10 M-10 (Yellow)

C Natural cork

Tube cap	GREEN	BLUE	RED
Speed	SLOW	MEDIUM	FAST
Temperature	22°C-33°C	12°C-23°C	0°C-13°C

The hardness of the skirt - the feather part of the nylon shuttlecock - varies depending on temperature.

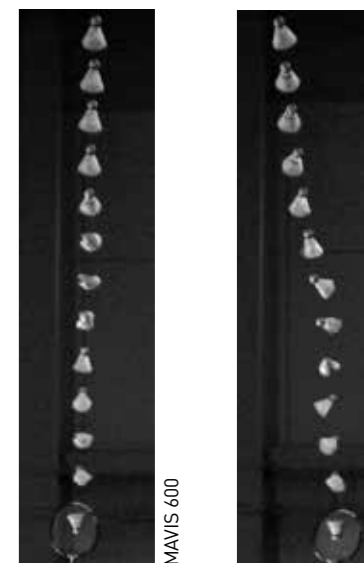

WING RIB™

The WING RIB design utilizes air flow through the shuttlecock to restore shape quickly on impact. Based on flight dynamics, this original design grants stable flight, contrary to conventional models that restore shape via stiff construction.

The WING RIB design is featured in MAVIS 2000 and MAVIS 600.

- U.S.: Pat.No.8,105,185
- TW: Pat.No. I433704
- JP: Pat.No.5174036
- CA: Pat.No.2764226
- EU: Pat.No.2216078
- CN: Pat.No.ZL200880118791.0

Always store shuttlecocks away from high temperatures and keep the tube upright with the cork side of the shuttlecock facing down.

More stable performance of MAVIS 600 equipped with WING RIB.

SHOES

Developed, designed and tested year after year to demanding standards, Yonex shoes help you get the best out of your footwork; giving you outstanding performance, dependability and comfort.

POWER CUSHION™

All Yonex footwear is equipped with POWER CUSHION Technology, which absorbs shock and smoothly reverses the impact energy into your next movement. Gentle yet durable, a raw egg can be dropped from seven meters above a POWER CUSHION mat, rebounding to a height of four meters without breaking.

- Absorbs shock and reverses impact energy
- Smooth energy transfer into next movement
- Lightweight for comfort
- 3 times more shock absorption than Urethane

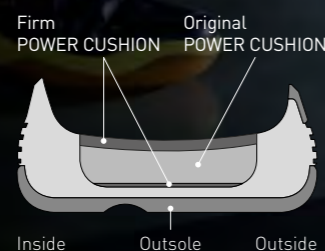

Muscle Fatigue	Weight Comparison	Shock Absorption	Repulsion
10% less*	1/10*	1.3 times*	3 times*
Minimum muscle fatigue and improved exercise benefit.	Our lightest ever material.	Reduced impact from the court and shock load on feet and ankles.	Converts impact energy into additional power for faster footwork.

*Compared to leading shoe material

3-Layer POWER CUSHION

Higher-density top and bottom layers help the 3-layer POWER CUSHION absorb 30% more shock than original POWER CUSHION.

- 5% more repulsion than the original POWER CUSHION
- Converts shock energy into power for fast and light footwork

STABILITY

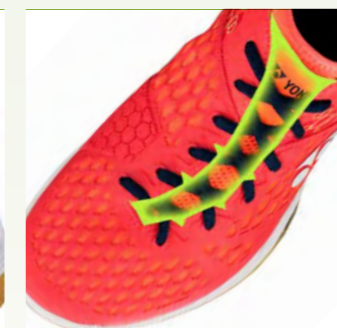

TPU Support

Elongating the TPU section reinforces the foot during quick, harsh lateral movements.

Inner Bootie

Tongue connected with shoe opening reduces overlapping layers for a more snug fit.

Flexion Upper

Asymmetric design with a curved eyelet creates a natural snug fit around the inner arch.

Durable Skin

Strong material with varying stiffness in key areas of the forefoot provides both stable support and soft comfort.

POWER CUSHION 03 Z MEN

Newly designed upper provides remarkably improved fit and stability.

ITEM CODE: SHB03ZM
COLOUR: Coral Red

POWER CUSHION 03 Z LADIES

Newly designed upper provides remarkably improved fit and stability.

ITEM CODE: SHB03ZL
COLOUR: Light Blue

POWER CUSHION 03

Newly designed upper provides remarkably improved fit and stability.

ITEM CODE: SHB03
COLOUR: Blue/Lime, White/Black, Navy/Turquoise

LIGHTWEIGHT

Synthetic Mesh Vents

2x more synthetic mesh areas offer improved ventilation.

Durable Skin Light

Combination of high quality mesh and thin PU Film provides comfortable fit and reduces excess weight.

MEN

POWER CUSHION AERUS 2 MEN

The lightest shoe from Yonex, offering smooth footwork and excellent stability.

ITEM CODE: SHBA2M
COLOUR: Green, Navy

COMFORT

POWER CUSHION COMFORT TOUR

Snug fit and ultimate cushioning equipped with POWER CUSHION throughout the entire sole.

ITEM CODE: SHBCFT
COLOUR: Crystal Blue, Crystal Red

MEN

WOMEN

POWER CUSHION COMFORT MEN

Ultimate cushioning for a soft, comfortable fit with low-cut design.

ITEM CODE: SHBCFM
COLOUR: Neon Orange

POWER CUSHION COMFORT LADIES

Ultimate cushioning for a soft, comfortable fit with low-cut design.

ITEM CODE: SHBCFL
COLOUR: Pink/Blue

WOMEN

POWER CUSHION AERUS 2 LADIES

The lightest shoe from Yonex, offering smooth footwork and excellent stability.

ITEM CODE: SHBA2L
COLOUR: Pale Orange, Mint

POWER CUSHION COMFORT ADVANCE

Low-cut basic model with high cushioning.

ITEM CODE: SHBCFA
COLOUR: Green, White/Blue

ALL ROUND

POWER CUSHION 65
Improved fit and better stability on landings for quicker, sharper movements.
ITEM CODE: SHB65
COLOUR: Silver

POWER CUSHION 65α
Improved fit and better stability on landings for quicker, sharper movements.
ITEM CODE: SHB65A
COLOUR: Sky Blue

POWER CUSHION 47
Good traction with soft cushioning for the feet and joints.
ITEM CODE: SHB47
COLOUR: Blue, Lime

POWER CUSHION 65 WIDE
For wider feet. Improved fit and better stability on landings for quicker, sharper movements.
ITEM CODE: SHB65W
COLOUR: Blue

POWER CUSHION 65α WIDE
For wider feet. Improved fit and better stability on landings for quicker, sharper movements.
ITEM CODE: SHB65AW
COLOUR: Red

POWER CUSHION 35
Affordable shoe with reliable traction and cushioning for the feet and joints.
ITEM CODE: SHB35
COLOUR: Black/Blue, Orange, Red, White/Orange, White/Sky Blue

POWER CUSHION 65R
Gentle on feet and joints with good grip.
Item Code: SHB65R
Colour: Black/Yellow, Purple, Pale Blue

POWER CUSHION 35 LADIES
Affordable shoe with reliable traction and cushioning for the feet and joints.
ITEM CODE: SHB35L
COLOUR: White/Lavender, Yellow/Sax

POWER CUSHION 55
Comfortable soft fit with lightweight low-cut design.
ITEM CODE: SHB55
COLOUR: Black/Lime, Blue, White/Orange

JUNIOR

POWER CUSHION 35 JUNIOR
Affordable shoe with reliable traction and cushioning for the feet and joints, junior fit.
ITEM CODE: SHB35JR
COLOUR: White/Orange

Full Cushion Sole+S

Taking the shock-absorbent properties and high repulsion of the POWER CUSHION to the next level, Full Cushion Sole+S features POWER CUSHION throughout the entire midsole. This increased level of cushioning results in reduced stress on the ankle and heel for a pleasant fit.

Flexion Upper

An asymmetrical upper design in which eyelets in the upper shoe follow the curved shape of the instep, hugging the foot. This allows all the stress on landing to be absorbed through the toes and instep.

3D Power Graphite Sheet

3D Power Graphite Sheet is equipped to provide robust reinforcement under and outside the centre of the foot, reducing shoe twist.

Toe Assist Shape

A toe-centric design that cuts down on pressure in the big toe, as well as offering improved support at the mid-foot and heel for a stable fit. Power loss is reduced, allowing for swift footwork.

Upper

Tough Guard™ III: Extremely durable wear-resistant synthetic leather.

Durable Skin: A polyurethane material offering improved high shape retention, wear-resistance and heat-resistance.

Double Russel Mesh: Highly breathable open mesh.

Lateral Shell: Installed on the outer area of the upper, it prevents sliding at the edge of the sole. It reduces power loss, increases footwork response and creates smooth, fluid and offensive movement.

Ergoshape: Removes pressure and provides a comfortable fit around the toes. Centre of gravity is shifted to the large toe – where most power is concentrated – for a painless fit that offers more speed in your step.

Midsole

ToughBrid Light: The new ToughBrid Light offers an 11% drop in weight from the previous ToughBrid, while maintaining its cushioning, shape retention and high elasticity.

Hyper msLite: Features a 10% reduction in weight over the past Super Feather Lite midsole material, while preserving a consistent shape over a long period of time.

Power Graphite Lite: A graphite plate placed under the metatarsus for reduced weight as well as stability on landing.

Insole

Synchro-Fit Insole: Offering extra support around the front of the heel and reducing the gap between the foot and shoe, the Synchro-Fit Insole ensures maximum grip and improves comfort and performance.

Sole

Hexagrip: For agile and stable footwork, the Hexagrip pattern provides 3% more grip and is 20% lighter than standard sole material.

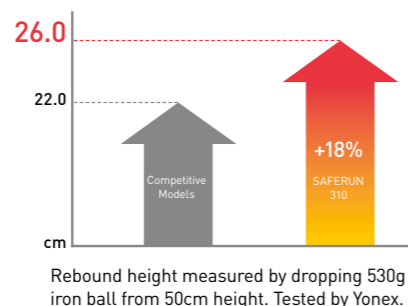

Round Sole: The Yonex Round Sole is designed to provide all-round support for quick and smooth footwork. The Round Sole ensures smooth movements and the transfer of maximum energy.

RUNNING SHOES

SAFERUN 310 TECHNOLOGY

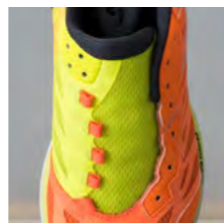

Mid Contact Design:
Ideal for Light Runners

POWER CUSHION equipped from forefoot to midfoot allows for maximum shock absorption at the point of impact. The shock impact is converted into energy with every next step.

Spiral Wrap

A combined tongue and upper reduces creasing and firmly secures your foot.

SAFERUN 800X TECHNOLOGY

Smooth Navi 2.0:
Smooth and Stable Landings

SAFERUN 800X changes shape at the point of impact, delivering a smooth and stable landing.

Inner Bootie

The interconnected tongue and shoe opening reduces overlapping layers for a snug, more streamlined fit.

MEN

SAFERUN 310 MEN

For runners who prefer a lightweight shoe.

ITEM CODE: SHR310M

COLOUR: Bright Orange, Cobalt Blue, Black

WEIGHT: 245g/8.6oz (per shoe at size 26cm)

WOMEN

MUSCLEPOWER SUPPORTER

The new MUSCLE POWER SUPPORTER equipment from Yonex integrates harmless silicon to comfortably and firmly fit each joint and muscle. The combination of tape and silicon firmly embraces joints while moderately compressing muscle fibre and gently supporting ligaments against rapid movement.

ELBOWS

Moderately compresses tendons to cushion impact on elbows.
ITEM CODE: MPS-70ELEX
COLOUR: Black/Blue
SIZE/LENGTH: S/20-23cm
M/24-27cm
L/28-30cm
MATERIAL: Chloroprene, Silicon, Nylon

WRISTS

Controls hyper-extension of ligaments.
ITEM CODE: MPS-60RIEX
COLOUR: Black/Blue
SIZE/LENGTH: M/13-16cm
L/17-20cm
MATERIAL: Chloroprene, Silicon, Nylon
RIGHT SIDE: M/R-M, L/R-L
LEFT SIDE: M/L-M, L/L-L

KNEES

Applies pressure on patella and supports knees. Easy to slip on/off with adjustable compression, with a mesh structure for ultimate comfort.
ITEM CODE: MPS-80SKEK
COLOUR: Black/Blue
SIZE/LENGTH: S/29-32cm
M/33-36cm
L/37-40cm
MATERIAL: Chloroprene, Silicon, Nylon

ACHILLES TENDON

Firmly wraps and protects Achilles tendon.
ITEM CODE: MPS-30ACEK
COLOUR: Black/Blue
SIZE/LENGTH: S/19-20cm
M/21-22cm
L/23-24cm
MATERIAL: Chloroprene, Silicon, Nylon

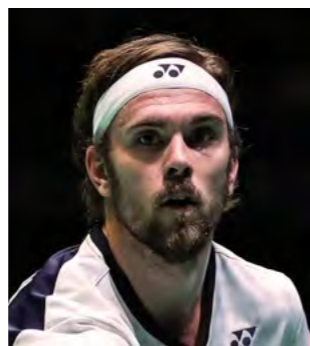

ANKLES

Firmly holds ankles in place and protects ligaments from rapid movement.
ITEM CODE: MPS-40AKEK
COLOUR: Black/Blue
SIZE/LENGTH: S/19-20cm
M/21-22cm
L/23-24cm
LL/25-26cm
MATERIAL: Chloroprene, Silicon, Nylon
RIGHT SIDE: S/R-S, M/R-M, L/R-L, LL/R-LL
LEFT SIDE: S/L-S, M/L-M, L/L-L, LL/L-LL

MUSCLE POWER SUPPORTER products are designed for sports application and not intended to provide support or benefit for daily use.
